

our students are graduating with hope, skills, and a future full of possibilities

This includes;

01. Beautician Graduation
02. Basic Tailoring Graduation
03. Basic Computer Graduation
04. Content Creation Graduation

Beautician Graduation

We are happy and proud to share that the Basic Beautician Course conducted has been successfully completed! This course was designed not only to teach beauty skills, but also to help students build confidence and prepare for a brighter future. Over the duration of the course, participants received practical training in important beauty areas such as skincare, hair care, basic makeup, threading, waxing, and personal grooming. They learned not just how to do the work, but how to do it with care, professionalism, and confidence. In addition to technical training, we also included Empowerment Sessions to support the personal and professional growth of each student. These sessions were very interactive and focused on key life skills such as:

- Communication skills:
- How to break the stage fear barrier – helping students overcome nervousness and speak in front of groups
- Importance of having a job understanding how employment can lead to self-reliance and dignity
- Interview preparation how to present oneself in a professional setting

These sessions helped many students come out of their shells and feel more ready to face the world.

To celebrate the success of our students, we organized a beautiful graduation ceremony. The event began with the lighting of the traditional lamp, symbolizing the start of a new journey filled with knowledge and hope. This was followed by a cake-cutting ceremony, where everyone came together to share the joy of achievement.

Certificates were awarded to each student to honor their hard work and commitment. After the ceremony, we shared a delicious meal with all the students and staff. It was a moment of pride, smiles, and togetherness.

We are truly inspired by the passion and determination of our students. Many of them now feel more confident and ready to either start working in beauty salons or offer services from their own homes.

A heartfelt thank you to our trainers, volunteers, supporters, and the entire Planet Hope Asia Foundation team. Your love and dedication made this journey possible.

We believe that by building skills and confidence, we can change lives and create hope.

Together, we move forward stronger, brighter, and more empowered.

Basic Tailoring Graduation

We are delighted to share the successful completion of the Basic Tailoring Course organized for the girls of a Government College. This course was specially designed to provide practical tailoring skills and open up new opportunities for self-employment and income generation. Over the course of several Months, students learned the basics of cutting, stitching, hemming, pattern making, and how to operate a sewing machine. They practiced making simple garments like salwar-kameez, blouses, and skirts, gaining both skill and confidence.

In addition to tailoring, we also included Empowerment Sessions to support the personal growth of each student. These sessions focused on:

- Communication skills
- Overcoming stage fear
- Understanding the importance of jobs and self-employment
- Interview preparation and presentation

These life skills were very helpful in building confidence, especially for students preparing to step into the world after college.

To celebrate the successful completion of the course, we organized a warm and joyful graduation ceremony. The event began with the lighting of the lamp, a symbol of new beginnings, followed by a cake-cutting ceremony and certificate distribution. A special lunch was arranged for all the students and staff to enjoy the moment together.

The tailoring course gave these young women a valuable skill and a sense of independence. Many expressed their desire to continue learning or even start their own tailoring services in the future.

We thank our trainers, volunteers, and supporters for making this training a success. With your help, we continue to empower young women through skills and self-confidence.

Basic Computer Graduation

We are pleased to share the successful completion of the Basic Computer (ICT) Course conducted by Planet Hope Asia Foundation for the students of Domlur Government College.

This course was designed to introduce students to essential computer skills that are highly useful in today's digital world. Over several weeks, the students received hands-on training in:

- Basic computer operations
- Typing and using MS Word, Excel, and PowerPoint
- Internet usage and email
- Online safety and digital responsibility

Through practical sessions and step-by-step guidance, the students gained confidence in using computers for everyday tasks, academics, and future job opportunities.

To further support their personal and professional growth, we also conducted Empowerment Sessions on key life skills such as:

- Effective communication
- Breaking stage fear
- Understanding the value of education and employment
- Job interview skills and workplace etiquette

These sessions helped students feel more confident in presenting themselves and prepared them to enter the workforce or continue higher studies with digital awareness.

To celebrate their achievements, a cheerful graduation ceremony was held. The program began with the lighting of the lamp, followed by cake cutting and the distribution of certificates to all participants. A special lunch was also arranged, creating a warm and memorable closing to the program. The Basic ICT Course gave these young women not only technical knowledge but also the motivation to dream bigger and step into a digital future with confidence. We extend our heartfelt thanks to all trainers, volunteers, college staff, and supporters who made this program a success. Together, we are helping young women build skills that can change their lives.

We are happy to share the success of the pilot Content creation course

This course introduced the 25 girls to the world of digital content, helping them explore their creativity and learn useful skills for today's online world. During the sessions, the girls gained hands-on experience with;

- Different types of content such as text, images, and videos.
- Basic writing for blogs, social media, and storytelling.
- Creating content using mobile phones and free digital tools.
- An introduction to editing apps and simple presentation tools.
- Tips on sharing content online and engaging with audiences.

The course encouraged the students to express themselves, share their ideas, and discover how content can be used to communicate, learn, and grow in their future careers.

To celebrate their hard work, we ended the program with a joyful event. The celebration included lighting a lamp, cutting a cake, handing out certificates to all the girls, and enjoying a special lunch together.

This experience helped the girls build new skills. We believe this will support them in both their studies and future careers.

A big thank you to the teacher, all interns and supporters who made this possible. Your support helps young women grow into confident, skilled individuals ready for the future.

Looking Ahead - what's next at planet hope Asia

As we move into a new month, we're excited about the what's ahead;

- Graduation of our Saree Kuchu batch – congratulations to all!
- New batches starting for ICT, Tailoring, Saree kuchu, Beautician classes – welcome, new learners!
- Welcoming new interns – we're happy to have you with us!
- Looking forward to a month full of learning and growth.

**Stay connected with us for more updates
and inspiring moment's.
The journey continues!!**
